

ELECTRO-ART

INTRODUCTION:

“No great artist ever sees things as they really are. If he did, he would cease to be an artist” – Oscar Wilde.

True indeed. Hello, folks. This event is especially for those people who have got a penchant for seeing things differently and an imagination that would bring even dreams to shame. So pull up your sleeves and put your creativity to use.

RULES:

1. Maximum of 4 members in a team. Intra college teams are also allowed.
2. Each team has to submit a small model of anything made only out of electronic components (resistor, inductors, capacitors, wires etc...)
3. Only electronic components can be used in making the model.
4. The components can't be joined or attached with the help of any adhesives.
5. Wires and soldering can be done to attach them.
6. The maximum dimension of the model should be 15cm x 15cm x 15cm.

Deadline of submission: 11.59 AM, 23rd February 2015

Place of submission: Energy Club, Room No-109, Laboratory Building

CONTACTS:

Dibya Sundar Rath
